

## D&B ENGINEERS AND ARCHITECTS, P.C.

### Corporate Office:

330 Crossways Park Drive  
Woodbury, NY 11797  
Tel: 516-364-9890  
718-460-3634  
Fax: 516-364-9045

### Regional Offices:

4 West Red Oak Lane  
White Plains, NY 10604  
Tel: 914-467-5300  
Fax: 914-467-4658

11 Oval Drive, Suite 100  
Islandia, NY 11749  
Tel: 631-265-8921  
Fax: 631-265-8961

5879 Fisher Road  
East Syracuse, NY 13057  
Tel: 315-437-1142  
Fax: 315-437-1282

3000 Hadley Road  
South Plainfield, NJ 07080  
Tel: 908-668-4747  
Fax: 908-668-4658

8 Neshaminy Interplex,  
Suite 219  
Trevose, PA 19053  
Tel: 215-244-9972  
Fax: 215-344-9977

11 N. Pearl Street, Suite 1106  
Albany, NY 12207  
Tel: 518-636-6912

## Health and Safety

### SERVICES INCLUDE:

*Site Safety Audits*  
*Health and Safety Plan (HASP) Development*  
*Contractor HASP Review*  
*Employee Training*  
*Incident Investigation*  
*Incident Trending Analysis*  
*Emergency Action Plans*  
*1910 Audits*  
*Environmental Health and Safety (EHS) Design Review*  
*Regulatory Interpretations*

D&B Engineers & Architects, P.C. (D&B) recognizes that safety compliance is an integral component of the construction process and, along with delivering projects that are on time and on budget, we emphasize a goal of no injuries or lost time incidents.

Our safety personnel provide numerous services during construction projects. We review design plans for both 1926 (construction) and 1910 (general industry) compliance; develop and enforce construction management (CM) health and safety plans (HASPs) and associated job hazard analysis (JHA); and conduct toolbox talks for our field staff. Our safety professionals also review contractor HASPs for compliance with federal, state, local and OSHA regulations and assist contractors in enforcing their safety rules.

During construction, our safety professionals conduct site audits to verify compliance with all applicable HASP, local, city, state and federal regulations, make note of any deficiencies uncovered, establish timetables for corrective action by collaborating with the contractor to identify, and solve the issues encountered at the sites. This approach makes for a more productive relationship and allows the project to proceed more smoothly.

Our Environmental Health and Safety (EHS) Director is a certified OSHA trainer and ensures that all employees have the safety training required for their tasks. Training is conducted in-house to the degree possible and all external training is provided by reputable training institutions. This ensures the quality of expertise our people bring to their projects.

Should an incident occur at one of our sites, our safety staff is equipped to handle evacuations and other emergency plans, and assist with incident investigations (root cause analysis). Trends are logged so D&B can determine where the risks lie and make efforts to reduce these issues.

One of the biggest challenges in safety work is when "regulations meet reality", meaning it is easy to state a regulation, but often challenging to interpret and enforce since all sites are different and offer their own unique situations. D&B's safety personnel are knowledgeable in applicable regulations and have the expertise to work with site construction managers and construction staff to develop and implement solutions to these challenges.
