SARA Title III/ Community Right-To-Know Compliance

SERVICES INCLUDE:

Applicability Determinations
Materials Accounting/Chemical Usage Reconciliation
Annual Toxic Chemical Inventory (Tier I/Tier II)
Annual Toxic Release Inventory (Form R)
Emergency Planning and Notification

Whether you need assistance clarifying a regulatory definition that may lead to reporting just a few chemicals, or if you require a full-service approach consisting of record reviews, on-site audits and preparation of the required Tier I and Tier II Forms and Form R for numerous chemicals, D&B Engineers and Architects, P.C. (D&B) can assist you.

Authorized by Title III of the Superfund Amendments and Reauthorization Act (SARA), the Emergency Planning and Community Right-to-Know Act's primary purpose is to inform communities and their citizens of the potential exposure to toxic chemicals. Sections 311 and 312 require businesses to report the locations and quantities of toxic chemicals stored on site to state and local governments on an annual basis (Tier I and Tier II forms). Section 313 requires specific manufacturing facilities to report annual releases of toxic chemicals to the environment (Form R).

As part of its overall environmental compliance services, D&B's SARA Title III compliance team works with both major industrial clients, as well as small to mid-sized manufacturing plants, to ensure that all toxic chemical inventory and release information submitted to federal, state and local governments is accurate and complete.

D&B offers technical support in SARA Title III planning and reporting. Whether it consists of simply consulting on a technical or regulatory matter, or a more full-service approach consisting of a toxic chemical audit, threshold determination and

preparing annual toxic release inventory forms, D&B can meet your needs. The SARA Title III compliance services offered by D&B include:

- Applicability Determinations
 - Threshold Determinations
 - Full-Time Employee Determinations
 - Primary SIC Determinations
 - Activity Determinations
- Materials Accounting/Chemical Usage Reconciliation
 - Chemical Usage Inventory Determinations
 - Potential Media-Specific Chemical Release Evaluations
 - Identification of Off-Site Transfers
 - Identification of On-Site Treatment
- Annual Toxic Chemical Inventory (Tier I and Tier II)
 - State and Local Reporting Requirements
 - Material Safety Data Sheet Compendium Update
- Annual Toxic Release Inventory (Form R)
 - Computer Generated Reports/Electronic Filing
 - Technical Assistance/Regulatory Updates
- Emergency Planning and Notification
 - Technical Assistance
 - Reportable Quantities

In addition, D&B can assist with the identification and evaluation of potential alternatives for the reduction of toxic chemical use and releases to minimize your company's exposure to reporting requirements.
