Hazardous Waste Management

SERVICES INCLUDE:

Facility Inspections/Audits

Hazardous Waste Management Plans

Corrective Action Programs

Closure Plans and Post-Closure Permits

Design and Construction Phase Services

Hazardous Tank Waste Management

Regulatory Interpretations

Training Programs

As part of a team responsible for ensuring that your company is in compliance with the many environmental statutes promulgated at the federal, state and local levels, you are no doubt aware of the complex regulatory and technical decisions confronting you and your facility managers each day, particularly in the area of hazardous waste management under the Resource Conservation and Recovery Act (RCRA) and the Hazardous and Solid Waste Amendments (HSWA).

D&B Engineers and Architects, P.C. (D&B) has unique insight into this complex area due to the experience and qualifications of individuals who have direct prior federal regulatory agency and commercial Treatment, Storage, and Disposal Facility (TSDF) experience. As a result, D&B is involved with a number of large corporate industrial clients, as well as small business entities, in offering full-service hazardous waste management programs. Typically, the hazardous waste management engineering and compliance services provided by D&B include:

- Facility Inspections/Audits
 - Applicability Determinations
 - Compliance Strategies
- Hazardous Waste Management Permits
 - Waste Characterization/Classification
 - Waste Analysis Plans
 - QA/QC Plans
 - Contingency Plans
 - Preparedness and Prevention Plans

- Corrective Action Programs
 - RCRA Facility Assessments
 - RCRA Facility Investigations
 - Corrective Measures Studies
 - Corrective Measures Implementation
- Closure Plans and Post-Closure Permits
 - Decontamination Programs
 - Closure Cost Estimates
 - Engineering Certifications
 - Closure Investigations
 - Groundwater Monitoring Plans
- Design and Construction Phase Services
