## Petroleum/Chemical Bulk Storage Compliance

### SERVICES INCLUDE:

*Petroleum Bulk Storage Programs*

*Chemical Bulk Storage Programs*

*Major On-Shore (Oil) Storage Facility Programs*

*Spill Prevention and Control Plans*

D&B Engineers and Architects, P.C. (D&B) has a demonstrated track record in the area of petroleum and chemical above/underground bulk storage tank compliance services. The engineering and compliance services generally offered include tank registrations, inspections, maintenance programs, design services, and investigation and corrective action programs.

Consistent with federal, state, and local regulatory requirements, D&B's petroleum and chemical bulk storage compliance services include the following:

- Petroleum/Chemical Bulk Storage Program
  - Regulatory Applicability Determinations
  - Tank Registrations
  - Tank Inspections (Annual, 5-year, 10-year)
    - » Visual
    - » Structural
    - » Shell Thickness
    - » Cathodic Protection
    - » Corrosion
    - » Secondary Containment
    - » Design Standards
  - Record Keeping
  - Maintenance Programs
  - Tank Closure Plans
  - Tank Investigation/Corrective Action
  - Design Services

- Construction Phase Services

- Major On-shore (Oil) Storage Facility
  - Regulatory Applicability Determinations
  - License Applications
  - Operations Manuals
- Spill Prevention and Control Plans
  - Spill Response Plans
  - Spill Prevention, Control and Countermeasure Plans
  - Cleanup and Removal Plans
  - Spill Prevention and Containment Plans
  - Facility Response Plans
  - Integrated Contingency Plans

Whether your facility has requirements for annual, 5-year or 10-year mandatory inspections and/or testing programs, or requires a more rigorous program, D&B can meet your needs.

The front-line elements of an effective petroleum and chemical bulk storage tank compliance program includes quality design, routine inspection services, and a consistent maintenance program. These are the backbone of D&B's bulk storage compliance services. D&B's environmental, structural, civil, mechanical, electrical, and chemical engineers are experienced in providing comprehensive design and inspection services in compliance with federal, state, and local regulatory requirements.
