Used Oil Management

SERVICES INCLUDE:

Compliance Inspections/Audits
Used Oil Quality Control Plans
Used Oil Acceptance Criteria
Rebuttable Presumption
Testing and Analytical Protocols
Permitting
Exemptions
Spill Prevention and Control
Storage Tank and Container Management
Closure

Used oil management is affected by a broad range of regulations at the federal, state and local levels. Whether you are a small quantity generator of used oil or a major commercial facility engaged in the recycling and/or reprocessing of used oil, D&B Engineers and Architects, P.C. (D&B) can assist you with compliance, recordkeeping, reporting, design and permitting efforts at your facility. In addition, D&B provides a full range of environmental engineering and compliance services to numerous large commercial used oil management facilities in the northeast.

For small quantity generators, D&B can assist with the compliance of day-to-day activities associated with the used oil program regulations. For larger commercial used oil recycling and/or reprocessing facilities, a broader multimedia environmental compliance approach typically is the most cost-effective management strategy.

For each type of facility, the following types of compliance services are available:

Used Oil Generators

- Prequalification Testing and Characterization
- Storage Tank and Container Management
- Record Keeping and Reporting
- Spill Prevention and Control
- Permits and Registrations
- Closure Services

Commercial Used Oil Recycling/Reprocessing Facilities

- Multimedia Compliance Audits/Inspections

- Wastewater Management Services
 - Full-Service Permitting
 - Treatment System Process Evaluation Engineering Design, Cost Estimating, and Procurement
 - Development of Testing and Monitoring Programs
- Solid and Hazardous Waste Management Permits
 - Engineering Design Reports
 - Used Oil Quality Control Plans
 - Development of Acceptance Tests and Protocols
 - Closure Plans and Closure Cost Estimates
- Facility Operating and Title V Air Permits
 - Applicability Determinations
 - Emissions Inventories and Emissions Estimates
 - Air Emissions Impact Assessments/Modeling
 - Emission Reduction Credits
- Storage Tank Management Services
 - Compliance Evaluations
 - Conceptual and Engineering Design and Procurement
 - Testing
 - Retrofits/Closures
 - Tank Registrations
- Pollution/Spill Prevention and Emergency Response Plans
 - Spill Prevention, Control and Countermeasure Plans
 - Integrated Contingency Plans
 - Emergency Response Plans
 - Best Management Practice Plans
