

D&B: Engineering the Future.

Steve Fangmann, P.E., BCEE,
D&B President & CEO

D&B Engineers and Architects is a dynamic team of professionals...architects, engineers, environmentalists, construction managers and industry experts...driven by an unwavering commitment to improving the quality of life in communities through environmentally sustainable

solutions and the implementation of innovative technologies.

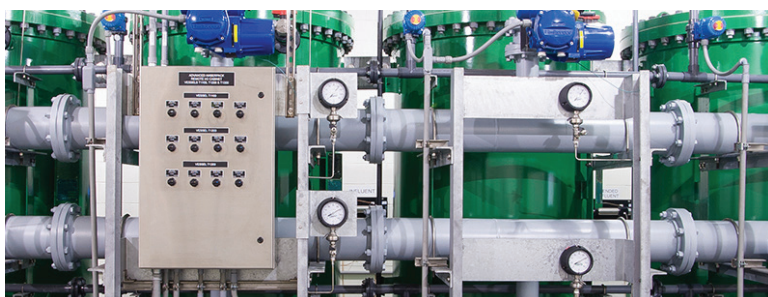

D&B is one of the region's leading multidisciplinary firms with specializations in water supply to protect drinking water quality, wastewater engineering and environmental sciences. Whether through our highly visible projects such as Nissequogue River State Park and Marine Fisheries, Belgrave Water Pollution Control

"...characterized by the empowering drive for Total Customer Satisfaction."

District, or our efforts in brownfield redevelopment in Glen Cove and across Long Island, we have helped to shape the region's future environment for over half a century. Today, we serve a broad range of markets with seven offices in three states.

THANK YOU...
to all LIBN readers for honoring us by voting D&B the Top Winner as Best Architectural Firm, Best Engineering Firm and Best Environmental Firm in the 2023 Reader Ranking Awards.

As a company, we endorse and respect the individuality of all our team members. As an organization, we are united by our culture and ethos,

by our professionalism and expertise and by our client collaboration which is characterized by the empowering drive for Total Customer Satisfaction. D&B's commitment embodies social responsibilities, charitable and educational efforts, community outreach and organizational support.

We empower our people, we encourage and support their development. Our professionals hold leadership and other critical positions in many industry associations, further defining our role as regional leaders in our respective practice areas.
